

# Dec 15 Minutes

## 17.5 Para progress

HR has extended a job offer for this position. The person is working on getting their fit for duty and fingerprinting done. We should have the position filled by mid to late January

## School usage of Mobymax

Spoke with the teachers at Post High. Letting them know that we are filling the 17.5 para position to help with mobymax instruction. I let each teacher know that we should use paras to assist in the implementation of the mobymax curriculum.

## How to increase learning

In speaking with staff we feel that we are on the right track with learning and helping students to achieve a more independent life. We will continue to the programs that are currently in place and focus on students learning life skills to make them more independent.
