Drivers License Division Location: 102

5300 W, Hurricane, UT 84737

THE BASICS

The first step in getting a Utah Drivers License is to go to the DLD and take the permit test. After getting your permit, start practicing driving with your guardian, and then sign up for the drivers education class on our website. After completing the class, you will drive, and test with one of our instructors, in order to get your license.

DRIVING SKILLS

You will need to practice the following skills while driving with your guardian: starting and stopping, turning, using your blinker, changing lanes, head checks, freeway and night driving, parallel parking and hill parking, u-turns, three-point turns, two-point turns, and parking in a parking lot.

OUR MISSION

Our mission here at Dixie High School as Driver's Education Instructors, is to ensure that all state guidelines are followed and completed in a timely manner, in order for you to get your license. We also hold a high standard in teaching you the importance of driving safely, and becoming a defensive driver on our roads.
