

Enterprise Elementary: Response to Intervention (RTI)

At Enterprise our goal is to have all students performing academically at or above grade level. Teachers constantly monitor student progress toward grade level goals. If a student falls below grade level, interventions are in place to give extra instruction, time, and support. Our interventions fall into three tiers:

- Tier 1—Regular classroom instruction provided to all students
- Tier 2—Supplemental small group instruction
- Tier 3—Intense individual or targeted small group instruction

Below are interventions we provide:

Before school

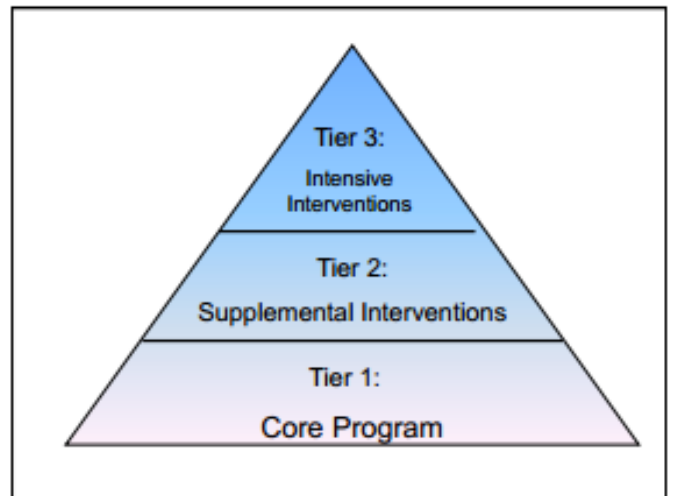

- Imagine Learning, a computer based language and literacy program

During School

- Preschool
- All Day Kindergarten
- Reading Recovery (specialized individual instruction)
- ALEKS, a computer based math program that provides individualized pacing
- Leveled Literacy Instruction (LLI) for groups of three students
- Reading aides and volunteers
- Imagine Learning
- Lexia (grades k-2)
- Daily grade level intervention time
- Special Education

After School

- Homework Club
- Lexia
- Imagine Learning

If you have any questions regarding RTI, please contact your child's teacher or the principal at 435-878-2236.
